**Blue Valley Ban Corp Reports Annual and Fourth Quarter 2002 Earnings**

Overland Park, Kansas, January 14, 2003 – Blue Valley Ban Corp (OTCBB: BVBC) (“the Company”) today announced net income of \$5.4 million or fully-diluted earnings per share (EPS) of \$2.40 per share for the year ended December 31, 2002, an increase of over 36.0% compared to net income of \$3.9 million or \$1.77 per share for the same period in 2001. Net income for the fourth quarter of 2002 was \$1.4 million, or \$0.61 per share, compared to \$1.6 million, or \$0.73 per share for the same period in 2001.

“The Bank was well-positioned to benefit from increased mortgage business in the second half of 2002” said Robert D. Regnier, Chairman and CEO of Blue Valley Ban Corp. “That contribution, combined with a solid performance by our commercial banking operation, resulted in significant earnings for the year.” During December 2002, the Company’s Board of Directors declared the first ever cash dividend on the Company’s common stock. A \$0.10 per share dividend will be paid on January 15<sup>th</sup>, 2003 to shareholders of record as of December 31, 2002.

For the twelve-month period ending December 31, 2002, net interest income increased 10.6% to \$16.3 million compared to \$14.8 million for the same period in the prior year, primarily due to growth in earning assets. Noninterest income increased to \$19.0 million during this period from \$9.3 million in the prior year, an increase of 105.2%. The expansion of the Company’s internet mortgage capabilities coupled with the current low interest rate environment resulted in a significant increase in the number of residential mortgage loans originated and sold by its Internet and Retail Mortgage divisions. Noninterest expense increased 53.5% to \$24.1 million compared to \$15.7 million in the prior year period. The increase relates primarily to costs associated with the Company’s growth and expansion.

For the fourth quarter of 2002, net interest income increased 18.1% to \$4.5 million compared to \$3.8 million for the same period in the prior year, primarily due to growth in earning assets. Noninterest income increased to \$6.2 million during this period from \$4.2 million in the prior year, an increase of 47.6%. The principal factor driving the increase in non-interest income has been Loans Held for Sale Income earned on loans originated and sold by the Company’s Internet and Retail Mortgage divisions. Noninterest expense increased 51.7% to \$7.3 million compared to \$4.8 million in the prior year period. The increase relates primarily to costs associated with the Company’s growth and expansion.

Total assets, loans and deposits at December 31, 2002 were \$605.2 million, \$380.1 million and \$423.8 million, respectively, compared to \$492.0 million, \$334.1 million and \$394.2 million one year earlier, respectively, increases of 23.0%, 13.8% and 7.5% respectively.
